60 - 61	Hardware
62	Customer Care Guide

We have developed the most thermally efficient entrance door on the market.

When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.*

Investing in a new, high-performance door will boost insulation levels and reduce draughts and cold spots, making your home extra warm, enabling you to turn the thermostat down a degree or two!

Plus, there's the added bonus of it being more secure. Oh, and did

we mention giving your home enviable kerb appeal!
But don't just take our word for it. We supply the UK's leading composite door with more than four million doors installed across the country.

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. By choosing our thermally efficient products you can keep the warmth in and the cold out.

* Based on indicative calculations of the door core.

High security, energy efficient, composite entrance doors brought to you by Royale.

Quality you expect

We have the best product in the market by far. Our superior doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Royale GRP composite door an authentic and premium aesthetic.

Foam filled core

The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum. See previous page.

Water-resistant composites

Thanks to the water-resistant polymer composite rails, our doors will help keep water absorption away, this helps prevent a bowed door that could happen with solid timber core composite doors on the market.

Reinforced core

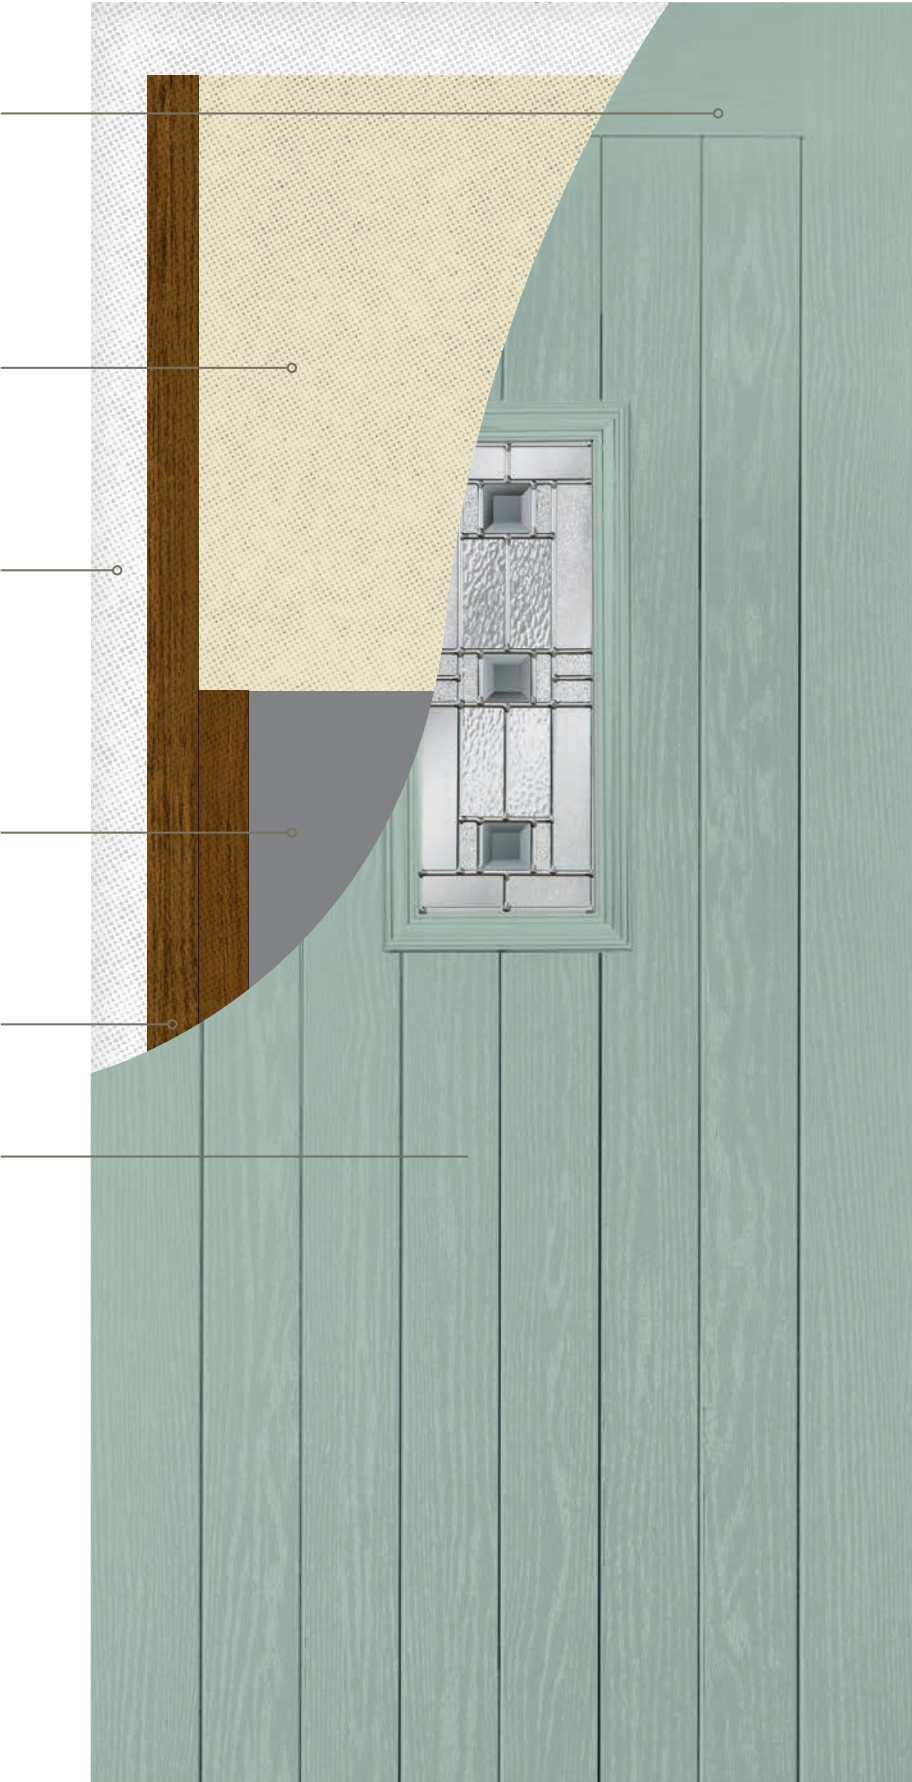

The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure.

Engineered wood

For improved stability.

Decorative glass

Triple glazed and laminated as standard for extra security and peace of mind.

“A versatile door design,
and our most popular
for obvious reasons”

Colour

- The PVCu door outerframe is supplied in White as standard.
- A limited number of coloured door frames are available (please ask your installer for further details).
- The composite door slab and PVCu outerframes are made from different materials, we therefore cannot guarantee an exact colour match due to the difference in surface finishes.
- **Colours shown should be used for guidance only as the limitations in the printing process, may mean that colours vary from those illustrated.**

Our standard colours

Gramacho, Lisboa, Pestana, Millenium, Ocean, Pinta, Onyria and Estoril: White or Bespoke.

nxt-gen Faldo: White, Distinction Anthracite Grey or Bespoke.

Espiche, Balaia, Oporto, Santo Antonio & Benamor: Black, White, Gold Oak, Rosewood, Distinction Chartwell or Bespoke. White on internal side.

Bespoke Colours

Our doors come with an exceptional 10 years surface warranty or 5 years for those colours denoted with an asterisk. Colours shown should be used for guidance only as the limitations in the printing process, may mean that colours vary from those illustrated.

Hardware

Indicative U-Values

The indicative U-Values throughout our brochure are based on a specification including: Distinction Signature PVC edgebanded door leaf, 70x70mm PVC frame with steel reinforcement and a thermally broken aluminium threshold. Differences from this specification may affect the value considerably.

Please get in touch if you require further information.

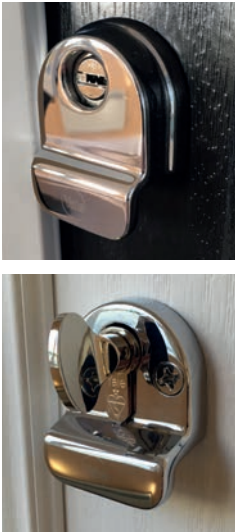

Heritage Lock

The Heritage lock also features slam shut locking, but replaces the contemporary bar handle with a traditional finger pull and thumb-turn escutcheon plate.

Available in PVD chrome, PVD brass and stainless finishes.

*Minimum door width to accept the Heritage Lock is 870mm overall.

Contemporary Lock

Make a statement with a modern bar handle. Available in a range of lengths, these handles complement the mid-point locking position of the Contemporary lock, and ooze style and quality with their stainless steel construction. In addition to looking great, these handles and the ease of operation are available fitted inside and out, or to the outside only.

When your door is in the closed position, always lift the handle set to engage the deadbolt and hooks. This will help with keeping your door aligned in the correct frame position and help to combat thermal movement.

Offering high quality products with bespoke designs just for you.

The Royale Collection by MB Frames embodies the ultimate home improvement range. Comprising of casement windows, composite doors, slimline patio doors, vertical sliders, residential and French doors, conservatories and bifold doors. Find a local installer today, or contact us to get started on your next home improvement project.

In order to comply with your warranty and to prolong the life of the surface, a small amount of care and attention is needed. How often will depend on where you live. In a coastal or heavily industrialised area or near a main road, cleaning may need to be more often.

We recommend that you only use warm water with a lint free cloth and wipe dry with a soft clean cloth for the door's surface, as well as a little lubrication for operational parts; lock, hinges. Please refer to our 'Operation, Cleaning and Maintenance' instructions on our Website.

Please do not...

- Use abrasive cleaners or scouring pads
- Use pressure washers or steam cleaners
- Apply any type of bleach or solvent
- Apply any adhesives of any type or tack
- Have any contact with any sharp objects

The content of this document, photographic reproduction and technical details remain the sole property of MB Frames. Limited, all rights reserved. It cannot be reproduced, in whole or in part, without explicit permission. We reserve the right to change products illustrated within this brochure without prior consent. Terms and conditions of sale apply, a copy of which is available on request.

Door and glass colours shown in this brochure should be used for guidance only as the limitations in photographic and printing processes may mean that colours of products vary from those illustrated.

All doors are provided with white internal skins, as standard, although Gold Oak and Rose Wood are also available stained on both sides. Bespoke coloured doors can be painted on one or both sides. All information in this publication is provided for guidance only and is given in good faith. Distinction Doors reserve the right to alter specifications without prior notice. Reproduction of this brochure in whole or part is strictly forbidden without prior written consent. All images are for illustration purposes only. Published by MB Frames June V007 2025.
